

Thermal C5

Version: 2.2

Reviewed on 10.03.2019

Print date: 03.10.19

SECTION 1. Identification of the substance/mixture and of the company

Product identifier

Name Used on Label : **Thermal C5**
 Order-No. (5 Liter) : 8891403
 Order-No. (10 Liter) : 8891402
 Order-No. (55 Gal Drum): 8891301

Company : JULABO U.S.A., INC
 Manufactured for: 884 Marcon Blvd
 ALLENTOWN, PA 18109 / U.S.A.

Phone : [+1] 610-231-0250
 Fax : [+1] 610-231-0260
 E-mail : info@julabo.us
 Internet : www.julabo.us

Emergency Information : CHEMTREC 1-800-424-9300
 Trade name : Polydimethylsiloxane

Recommended use : Industrial use only
 Application : temperature control liquid
 : working temperature range -60 °C - +110 °C

SECTION 2. Hazards identification

Physical hazards Not classified
Health hazards Not classified
Environmental hazards Not classified
OSHA defined hazards Not classified

*Hazards not stated here are "Not classified", "Not applicable", or "Classification not possible"

Label Elements

Hazard symbol None
Signal word None
Hazard statement Not available

Precautionary statement

Prevention Not available
Response Not available
Storage Not available
Disposal Not available

Hazard(s) not otherwise classified (HNOC) None known
Supplemental information None

GHS Classification Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

HMIS Ratings: **Health: 0** **Flammability: 1** **Physical hazard: 0**

SECTION 3. Composition / information on ingredients

Substances

Chemical Name	CAS number	%
Polydimethylsiloxane	63148-62-9	100

Dangerous components Not applicable

SECTION 4. First aid measures

Description of first aid measures

Thermal C5

Version: 2.2

Reviewed on 10.03.2019

Print date: 03.10.19

General information:	No special measures required
Inhalation	Supply fresh air; consult doctor in case of complaints.
Skin contact	Wash skin with soap and water
Eye contact	Rinse immediately with plenty of water for at least 15 minutes
Ingestion	Rinse mouth. Get medical attention immediately.
Most important symptoms/effects, acute and delayed	Not available
Indication of immediate medical attention and special treatment needed	Treat symptomatically.

SECTION 5. Firefighting measures

Flash point:	>214 °F / >101.1 °C (Closed Cup)
Autoignition temperature:	>752 °F / >400 °C
Flammability Limits in Air:	Not determined
Suitable extinguishing media	Water spray. Foam. Dry chemical powder. Carbon dioxide (CO ₂).
Unsuitable extinguishing media	Water with full jet
Specific hazards arising from the chemical	By heating and fire, harmful vapors / gases may be formed.
Special protective equipment and precautions for firefighters	Firefighters must use standard protective equipment including flame retardant coat, helmet, gloves, rubber boots, and self-contained breathing apparatus.
Fire-fighting equipment / Instructions	Move containers from fire area if you can do so without risk. Water runoff can cause environmental damage.

SECTION 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Wear appropriate personal protective equipment. Particular danger of slipping on leaked / spilled product.
Environmental precautions	Do not allow product to reach sewage system or any water course.
Methods and material for containment and cleaning up	Absorb with liquid-binding material (sand, diatomaceous earth, sawdust, acid binders, universal binders)

SECTION 7. Handling and storage

Precautions for safe handling	Keep receptacles tightly sealed. Do not breathe mist or vapor. Provide adequate ventilation.
Information about fire - and explosion protection	No special measures required
Conditions for safe storage, including any incompatibilities	Store in a cool, dry place out of direct sunlight. Keep in original container.
Storage class:	VCI: 10
Specific end use(s):	No additional information available.

SECTION 8. Exposure controls / personal protection

Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Provide eyewash station
Individual protection measures, such as personal protective equipment	
Eye/face protection	Use proper protection – safety glasses as a minimum
Skin protection	
Hand protection	Wear protective gloves
Other	No special protective equipment required
Respiratory protection	If ventilation is insufficient when heating use chemical respirator with organic vapor cartridge.

Thermal hazards

Not available

General hygiene considerations

Wash hands before breaks and immediately after handling product. Handle in accordance with good industrial hygiene and safety practice. This product can generate formaldehyde at approximately 150 °C (300 °F) and above in the presence of air. Formaldehyde is a skin and respiratory sensitizer, eye and throat irritant, acute toxicant and potential cancer hazard. Safe handling conditions may be maintained by keeping vapor concentrations within the OSHA Permissible Exposure Limit for formaldehyde.

SECTION 9. Physical and chemical properties

Physical Form	Liquid
Color	Colorless
Odor	Odorless
Density	0.915 (@ 25 °C)
Viscosity	5 cSt (@ 25 °C)
pH	Not available
Freezing / melting point	Not available
Initial boiling point / boiling range	>205 °C
Flash point	>214 °F / >101 °C (Closed Cup)
Auto-ignition temperature	>752 °F / >400 °C
Decomposition temperature	Not available
Evaporation rate	Not available
Volatile content	Not available
Flammability (solid , gas)	Not applicable
Upper / lower flammability or explosive limits	
Flammability limit – lower (%)	Not available
Flammability limit – upper (%)	Not available
Explosive limit – lower (%)	Not available
Explosive limit – upper (%)	Not available
Vapor pressure	Not available
Vapor density	Not available
Solubility in water	Insoluble

Above information is not intended for use in preparing product specifications.

SECTION 10. Stability and reactivity

Reactivity	Product stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable at normal conditions
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	None known.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Thermal decomposition of this product during fire or very high heat conditions may evolve the following decomposition products: Carbon oxides and traces of incompletely burned carbon compounds. Silicon Dioxide. Formaldehyde.

SECTION 11. Toxicological information

Information on likely routes of exposure

Ingestion	Not available
Inhalation	Not available
Skin contact	Not available
Eye contact	Contact of the product with the human eye may result in a harmless and reversible clouding of sight which is of short duration, caused by formation of an oil film on the cornea.

Symptoms related to the physical, chemical and toxicological characteristics

Thermal C5

Version: 2.2

Reviewed on 10.03.2019

Print date: 03.10.19

Information on toxicological effects**Acute toxicity**

LD50, oral, rat >5000 mg/kg
 LC50, inhalation, rat >535 mg/kg (1 h, Aerosol)
 LD50, dermal, rabbit >10000 mg/kg

Skin corrosion / irritation

Not available

Serious eye damage / eye irritation

Contact of the product with the human eye may result in a harmless and reversible clouding of sight which is of short duration, caused by formation of an oil film on the cornea.

Respiratory or skin sensitization**Respiratory sensitization**

Not available

Skin sensitization

Not available

Germ cell mutagenicity

Not available

Carcinogenicity**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)**

Not listed.

Reproductive toxicity

Not available

Specific target organ toxicity – single exposure

Not available

Specific target organ toxicity – repeated exposure

Not available

Aspiration hazard

Not available

Further information

When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.

SECTION 12. Ecological information

Toxicity**Aquatic toxicity**LC0, 96 h, 200 mg/l, *Leuciscus idus*EC0, > 10.000 mg/l *Pseudomonas putida***Persistence and degradability** Not available**Bioaccumulative potential** Not available**Mobility in soil** Not available**Other adverse effects** Not available

SECTION 13. Disposal considerations

Disposal instructions Follow applicable Federal, State and Local regulations

SECTION 14. Transport information

DOT Not regulated as dangerous goods.

IATA Not regulated as dangerous goods.

IMDG Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable

Transport / Additional information Not dangerous according to the above specifications.

SECTION 15. Regulatory information

US Federal regulations**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)**

Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)**SARA 313 (TRI reporting)**

None present or not present in regulated quantities.

DOT Road Shipment Information (49 CFR 172.101)

Not subject to DOT.

Ocean Shipment (IMDG)

Not subject to IMDG code.

California Proposition 65

This product does not contain any chemicals known to the State of California to cause cancer, birth or any other reproductive defects.

International Inventories

Polydimethylsiloxane [63148-62-9]
Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
Listed on the Japanese ENCS (Existing * New Chemical Substances) inventory
Listed on the Canadian Domestic Substances List (DSL)
Listed on KECI (Korean Existing Chemicals Inventory)
Listed on USA Toxic Substances Control Act (TSCA)
Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
Listed on NZIoC (New Zealand Inventory of Chemicals)
Listed on the AICS (Australian Inventory of Chemical Substances)

SECTION 16. Other information

This document was created on 5 May 2015.

NFPA ratings

Health: 0 – Exposure under fire conditions would offer no hazard beyond that of ordinary combustible materials.
 Flammability: 1 – Must be preheated before ignition can occur
 Instability: 0 - Normally stable, even under fire exposure conditions, and not reactive with water.

DISCLAIMER

Information presented herein has been compiled from information provided to us by our suppliers and other sources considered to be dependable and are accurate and reliable to the best of our knowledge and belief but are not guaranteed to be so. We make no warranty as to the results to be obtained in using any material and since conditions of use are not under our control, we must necessarily disclaim all liability with respect to the use of any material supplied by us.

All chemicals may pose unknown hazards and should be used with caution. This Safety Data Sheet (SDS) applies only to the material as packaged. If this product is combined with other materials, deteriorates, or becomes contaminated, it may pose hazards not mentioned in this SDS. It shall be the user's responsibility to develop proper methods of handling and personal protection based on the actual conditions of use. While this SDS is based on technical data judged to be reliable, JULABO USA, Inc. assumes no responsibility for the completeness or accuracy of the information contained herein.
